

Esmertec is opening Customer Support and Testing Centre in Taipei, Taiwan

Professional services for regional customers in Asia

Duebendorf-Zurich, Switzerland / Taipei, Taiwan – July 8, 2004 –

Esmertec™ (www.esmertec.com), a leading provider of Java™ solutions for mobile phones and embedded devices, is opening a Customer Support and Testing Centre in Taipei, Taiwan in August 2004 to bring professional services and solutions closer to our customers in Asia.

The Taipei Centre will have a team of customer project engineers, customer support engineers and customer certification engineers to offer a complete portfolio of high-quality engineering services, including consulting, integration, porting, testing, certification, training, support and maintenance, delivering complete ready-to-market solutions and ongoing support to customers.

“We place a very high value on services for customers. With the increasing number of customers Esmertec is gaining in Asia, it is important for us to be able to provide strong local support,” said Jean-Claude Martinez, COO of Esmertec. “This centre will be staffed by fully trained and experienced local professionals, and will enable us to deliver quality services in local languages and local times.”

About Esmertec

Esmertec is a leading independent software company focusing on Java solutions and technologies for mass-market devices such as mobile phones, PDAs, home multimedia systems and machine-to-machine platforms. Esmertec provides Java Virtual Machines and J2ME enabling software solutions delivering high-performance computing on small devices to mobile equipment and consumer appliance manufacturers, embedded systems solutions providers, mobile service operators and application developers. Founded in 1999, Esmertec is a global company headquartered in Zurich, with engineering, sales and customer support operations in Switzerland, France, UK, USA, Singapore, China, Korea, Taiwan and Japan.

Big thinking in a small space.
